Why Us?

The rapport established between client and photographer makes or breaks a great photograph. We bring photographic professionalism to both our Korean and international clients.

In Asia, there can be cultural and language barriers that prevent nuanced interaction between subject and photographer.

Tom is a multilingual expatriate, with over 40 years photography experience in Asia. Mr. Hong has more than 30 years commercial photography experience in Korea. We can photograph you or your products in our studio. Or we can bring our mobile studio to you, such as to your office, your home or anywhere outdoors.
